

The Department of Civil Engineering at the University of Arkansas invites applications for a tenured/tenure-track position at the Assistant or Associate Professor level. Candidates with an expertise in structural engineering, having experience with large-scale experimental testing, are encouraged to apply. The Department is currently finalizing the design of a 20,000 ft² structural engineering laboratory, and it is expected that the successful applicant will serve with existing faculty in the effective use of the facility.

An earned Ph.D. in Civil Engineering or a closely related field is required. Registration as a licensed professional engineer (P.E.) in Arkansas is required before tenure will be awarded. The successful applicant is expected to teach undergraduate and graduate courses in civil engineering, advise undergraduate and graduate students, publish in peer reviewed journals, and develop and maintain an externally funded research program that will complement existing strengths within the department.

Screening of the applicants will begin November 15, 2016 and will continue until the position is filled. Applicants are asked to provide a cover letter, complete CV, teaching and research statements, and contact information for three references. Electronic submittal of application materials is required; application materials should be submitted online at <https://jobs.uark.edu/postings/16161>.

Located in the stunning Ozark Mountains, the University of Arkansas is the nation's seventh fastest-growing public research university and consistently ranks among the top public universities in the United States. The university's enrollment is over 27,000 students. Founded in 1871 as a land grant institution, the state's first public university is classified by the Carnegie Foundation among the top two percent of American universities with the highest level of research activity.

Fayetteville, home to the university, was recently voted No. 3 among the "Best Places to Live in the United States" by *U.S. News and World Report*. In addition to being one of the "best places to live," Fayetteville is home to the corporate headquarters of Fortune 500 companies such as Wal-Mart Stores, Tyson Foods, and J.B. Hunt Transport Services. An overview of the university and area can be found at <https://www.youtube.com/watch?v=j9ihImu88OQ>.

The Department of Civil Engineering has 18 full-time faculty members and approximately 270 undergraduates (sophomore through senior) and 50 graduate students. The Department offers an ABET accredited BS degree as well as MS and PhD degrees in Civil Engineering. Active research programs exist in environmental, geotechnical, materials, structural, and transportation engineering. In 2015, research expenditures for the Department were approximately \$2.3 million.

Questions concerning this position may be directed to Dr. Gary Prinz (prinz@uark.edu), chair of the faculty search committee.

The University of Arkansas is an equal opportunity, affirmative action institution. The university welcomes applications without regard to age, race, gender (including pregnancy), national origin, disability, religion, marital or parental status, protected veteran status, military service, genetic information, sexual orientation or gender identity. Persons must have proof of legal authority to work in the United States on the first day of employment. All applicant information is subject to public disclosure under the Arkansas Freedom of Information Act.
