

UNIVERSITY OF ARKANSAS

The Department of Civil Engineering at the University of Arkansas invites applications for one tenure-track position at the Assistant Professor level. Candidates with an expertise in structural engineering, having experience with large-scale experimental testing, are encouraged to apply.

An earned Ph.D. in Civil Engineering or a closely related field is required. Registration as a licensed professional engineer (P.E.) in Arkansas is required before tenure is awarded. The successful applicant is expected to teach undergraduate and graduate courses in civil engineering, advise undergraduate and graduate students, publish in peer reviewed journals, and develop and maintain an externally funded research program that will complement existing strengths within the Department.

Complete details regarding the position can be found at <http://civil-engineering.uark.edu>. Screening of the applicants will begin November 15, 2015 and will continue until the position is filled. Applicants are asked to provide a cover letter, full CV, teaching and research philosophies, and contact information for three references. Electronic submittal of application materials is required; application materials should be submitted online at <https://jobs.uark.edu/postings/9977>.

The University of Arkansas is a land grant institution and the state's flagship university. The university's enrollment is approaching 27,000 students. In 2011, the Carnegie Foundation designated the university with its highest possible research classification. The Department of Civil Engineering has 14 full-time faculty members and approximately 270 undergraduates (sophomore through senior) and 50 graduate students. The Department offers an ABET accredited BS degree, an MS degree in Environmental Engineering, and MS and PhD degrees in Civil Engineering. Active research programs exist in environmental, geotechnical, materials, structural, and transportation engineering. In 2014, research expenditures were approximately \$2.0 million.

Northwest Arkansas is one of the fastest growing areas in the nation having a population of over 400,000. Northwest Arkansas is home to the corporate headquarters of Fortune 500 companies Wal-Mart Stores, Tyson Foods, and J.B. Hunt Transport Services. Forbes Magazine has recently named Fayetteville, the home of the University of Arkansas, as one of the best places in the U.S. for business and careers. The Milken Institute has named Fayetteville the nation's "Number One Performing City" and Livability.Com ranked Fayetteville as one of the top ten college towns in the country. Information about the area can be found at <http://www.northwestarkansas.org>.

Questions concerning this position may be directed to Dr. Micah Hale (micah@uark.edu).

The University of Arkansas is an equal opportunity, affirmative action institution. The university welcomes applications without regard to age, race, gender (including pregnancy), national origin, disability, religion, marital or parental status, protected veteran status, military service, genetic information, sexual orientation or gender identity. Persons must have proof of legal authority to work in the United States on the first day of employment. All applicant information is subject to public disclosure under the Arkansas Freedom of Information Act.
